

3/4 Term Summary

Literacy

In reading, we will revisit our CAFÉ strategies to further build our comprehension skills. In writing, we will practice our recount writing skills while refreshing the many types of punctuation that can be used in our writing. Later in the term, we will focus on writing narratives and practice working through the writing process to complete some published pieces of work. We will also continue using soundwaves to assist with our spelling.

Maths

In maths we will be expanding our knowledge of place value and numbers up to and beyond 10,000. We will look at the different ways to represent numbers including expanding, renaming and writing numbers as words. Later in the term we will learn about reading and interpreting maps to coincide with our geography unit.

Inquiry

This term in inquiry we are learning about geography. We will start at home in Australia and learn about the states and territories, major cities, geographical landmarks and climate of our own country before branching out and exploring these features in countries outside of Australia. Students will choose a country from Africa or South America to research.
