

# 3/4 Term Overview

This term in 3/4 we are looking forward to having a full term of learning in the classroom and enjoying being with each other face-to-face.

## Literacy

In reading, we will continue to build our comprehension skills while reading a variety of fiction and non-fiction books. As a class we will be enjoying the adventures of a small mouse named Despereaux when we read the novel *The Tale of Despereaux*. In writing we will be starting the term off by focusing on writing recounts and then conclude the year with some poetry writing.

## Maths

In maths we will be building on our division skills when learning about fractions. We will also be learning about probability and conducting small experiments to determine the likelihood of certain events. We conclude the year by learning about shapes and time.

## Inquiry

This term in inquiry we are learning about chemistry. We will observe the properties of liquids and solids and will conduct experiments to determine the factors that turn a liquid into a solid.
